Supplemental Written Comments of *Susan Trescott-Ness*

Filed on Behalf of Herself & The Below Listed Concerned Organizations & Individuals

Responding to the January 28, 1999 release of a Notice of Proposed Rule-making in FCC Docket No. MM 99-25 (a.k.a. RM-9208 and RM-9242), Susan Trescott-Ness and the following signatories hereby submit supplemental formal written comments on the Commission's Proposed Rule to establish a Low Power FM Radio Service (LPFM).

No. of Copies rec'd 0115
List ABCDE

Introduction:

This filing primarily represents additional signatories to our Comments filed July 29, 1999. It also includes additional city council and county commission resolutions passed in support of LPFM, and the names of state-level elected officials who have voted for or co-sponsored LPFM resolutions. This filing does not represent new material or concepts, but is primarily intended to further demonstrate the vast scope of support for Low Power FM radio.

As clarified earlier, these Comments represent the fundamental points of the Comments filed by the Michigan Music is World Class Campaign. That filing consisted of approximately 200 pages and 30,000 words.

One of our key points is that the F.C.C. is obligated to institute an LPFM service simply due to the virtually unanimous public demand -- how can it be in the public interest to deny what just about every American citizen apparently desires?! In all honesty, it was difficult to find people who would NOT sign (other than high-level elected officials who are, perhaps, under the influence of the powerful broadcast lobby).

Obviously, it would have been unreasonable to ask a significant number of parties to read a 30,000 word document. So we distilled the comprehensive filing of the Michigan Music

Campaign, extracting the vital concepts and philosophy. The resulting Comments below, some 340 words, were then circulated for endorsements throughout our community primarily between Aug. 1 and Aug. 30, 1999.

We think any reasonable party will conclude the endorsements gathered by our unpaid volunteers over this short time represent nothing short of dramatic and compelling evidence. This is especially true when contrasted with the virtual void of demonstrated opposition to LPFM existing outside of the broadcast industry. Indeed, we doubt the broadcast industry has been able to produce even 100 people across the entire country not associated with the industry who oppose LPFM!

Congress mandates that the public airwaves be used in such a way that serves the public interest! That must be the first -- and final -- issue in any matter before the F.C.C. We submit that the public itself knows best what is in our interest. We also submit that the public would not be pleased with the suggestion that we are not capable of deciding, or that others know, what is best for us!

We estimate that approximately 30% of the State of Michigan, or three million citizens, are represented by our city and county resolutions. Of all these resolutions, only a single nay vote was cast (and that council member, oddly enough, seconded the motion!). Approximately 250

mayors and council members voted unanimously (with the one exception) in favor of LPFM community radio!

These resolutions, and also the endorsements below, come primarily from a small geographic area, four or five counties of the State of Michigan. We hold it to be simple common sense that the enormous demonstration of support displayed below represents not a freak aberration, but exactly what one should expect to find across the entire country if a comprehensive polling effort were to be conducted (we encourage such a polling project, in fact).

What IS an aberration is that, despite the lack of media opportunities and access available to us and despite our era of unprecedented media consolidation, a grassroots citizens' media lobby was able to coalesce even in one small area on an issue. This reality further proves the need to foster MANY new forms of communication available to the general public and the common person. This example provides evidence that, except in rare occasions, the general citizenry is not armed with the necessary tools to express ourselves -- not just adequately, but in any substantial manner!

Indeed, LPFM SHOULD be the beginning of a new trend at the F.C.C. which -- instead of assisting existing media empires to grow even more powerful and intimidating -- would seek to much better facilitate the common expression so vital to the health of our democracy. With all

respect, we suggest that the agency has for the most part failed in this fundamental duty.

P.J. Bednarski, editor of Electronic Media, says, "I don't think there's been a time in broadcast history in which consideration of local diversity or public interest has been held in lower regard."

We know that the present Commission has the insight to recognize the obvious truths expressed above. We hope the Commission also has the courage to ensure that the struggle over LPFM does not become yet one more "battle between the rich and the very wealthy," in which the first casualty is almost always the public interest.

Our Comments

1. As Chairman Kennard correctly states, the F.C.C.'s public interest mandate is the agency's "bedrock principle." As such, in all matters, including that of Low Power FM (LPFM) radio broadcasting, the fundamental issue with which the F.C.C. must concern itself is that of determining and fulfilling public interest and demand. It is impossible to square with the public interest a ruling which fails to abide by the virtually unanimous public support and demand for LPFM.

2. The F.C.C. is obligated to institute a system of license allocation which does not discriminate on the basis of economic standing; where the rights of one are not held superior to the rights of others and; where those rights are not held in perpetuity such that the rights of others are never recognized.

3. We are concerned about:

A. fundamental issues of fairness regarding the allocation of public resources;

B. the twin threats to democracy of:

i. media consolidation

ii. rising economic thresholds which bar access to public media resources;

C. cultural homogenization as a result of media consolidation;

D. local economic issues.

4. We are concerned that when comparing the stewardship of our airwaves to that of other forms of public property where public use and participation is encouraged, access to the public airwaves has

been held in elitist reserve, despite the historic role played by amateurs and hobbyists in the development of radio technology. We believe that in general the F.C.C.'s role should not be to limit and restrict communication and the expression of ideas between American citizens, but rather to foster and facilitate it to the greatest extent possible.

5. We agree with the F.C.C.'s majority view that this LPFM service

- A. can and should serve a wide range of purposes;
- B. can and should allow access to the public airwaves to a wide range of Americans;
- C. can and should serve a myriad of unique and diverse interests;
- D. can and should provide service to currently unserved communities.

6. We urge the Federal Communications Commission to adopt MM Docket 99-25 in a timely manner.

Respectfully submitted by,

Susan Trescott-Ness

City Council Resolutions

1-29-99

● Detroit

A Resolution to Urge the Federal Communications Commission (F.C.C.) to Restore Approval for Low Power FM Radio Broadcasting

By Council Member Mahaffey

WHEREAS, in 1978, the Federal Communications Commission (F.C.C.) ended its licensing of low power radio stations (Class D broadcasting licenses to stations of less than 100 watts) reducing overall the number of locally-based radio stations in service to local communities. Since that rule change, other factors such as increased consolidation within the radio broadcast market has contributed to a significant reduction in the number of community responsive radio services; and WHEREAS, Nationally, a grassroots movement has emerged for the purpose of advocating F.C.C. reinstatement of licensing of low power radio stations. Their efforts have resulted in a formal rule-making petition before the F.C.C., RM-9242, that would create opportunities for the return of locally owned and responsive FM radio stations for communities; and WHEREAS, Re-legalization of low power radio stations would serve to increase local media presence and ownership, promote small business development and broadcast entrepreneurship, increase community choice and allow for communication services that are responsive to the needs of local communities;

NOW THEREFORE BE IT

RESOLVED, The Detroit City Council urges the Federal Communications Commission to restore approval for low power FM radio broadcasting. The Detroit City Council joins the Michigan Senate (SR234), the Michigan House of Representatives (HR379) and the many grassroots organizations in seeking F.C.C. adoption of petition FM-9242 to restore low power FM radio broadcasting;

BE IT FURTHER RESOLVED, That copies of this resolution be sent to the Federal Communications Commission, the entire Michigan Congressional Delegation and the City's lobbyist, Nancy Barbour. Adopted as follows:

Yeas – Council Members Cleveland, K. Cockrel Jr., S.

Cockrel, Everett, Hood, Mahaffey, Scott, Tinsley-Williams, and President Hill – 9.

Nays – None.

1-25-99

● Ferndale

Resolution

Moved by Councilman Porter, seconded by Councilwoman Kulick, to adopt the following resolution: For many years, low power radio stations filled a unique niche in the communications needs of local communities. These operations, which used less than 100 watts of power, were licensed as Class D FM stations; and

In 1978, the Federal Communications Commission made a policy decision to stop licensing low power radio stations. This decision was based on concerns that low power radio stations were a hindrance to the orderly development of FM radio and a potential impediment to the efficient operation of facilities serving greater numbers of people; and

In recent years, the rate of consolidation in the radio broadcast market has increased. As a result, far fewer locally based radio stations have programming that serves their communities. These concerns have prompted many people to promote a change in FCC policies. A petition of rule-making, which proposes the reestablishment of low power FM broadcast services, is currently under consideration; and

Allowing low power FM radio to return to the airwaves will achieve several worthwhile goals in communications options open to people in our country. These community radio services will increase the local presence in the media, increase diversity of ownership, provide more choices to the public, offer new opportunities in business, and promote communications that better reflect the character and needs of our communities.

NOW, THEREFORE BE IT RESOLVED, that we, Ferndale's elected officials, encourage the Federal Communications Commission to restore approval for low power FM radio broadcasting.

BE IT FURTHER RESOLVED, that copies of this

Resolution be transmitted to the Federal Communications Commission.

AYES: Council Members Porter, Paczkowski, Warshay, Kulick; Mayor Goedert.

NAYS: None.

Motion carried.

I, Lee Ann O'Connor, Clerk of the City of Ferndale, do hereby certify that the foregoing is a true and compared copy of a Resolution duly made and passed by the Ferndale City Council at a meeting held January 25, 1999.

Lee Ann O'Connor, City Clerk

● Hazel Park

Michigan Music is World Class Campaign

On behalf of our Hazel Park Citizens, the Mayor and Council of the City of Hazel Park are in favor of the F.C.C. to re-legalize community radio and we support the adoption of RM-9242.

We believe it can improve access to our airwaves for all local residents without interfering with existing service.

Radio is the most suitable of any media outlet to provide community access. It is relatively inexpensive to produce and is well-suited to cover community issues and local music.

We support this petition and believe we owe the public some access to the airwaves they own. We hope the F.C.C. will consider RM-9242 favorable.

Yours truly,
Ben Colley, Mayor
Hazel Park

3-2-99

● Hamtramck

Resolution In Support Of Community Radio

WHEREAS, "community radio" allows for a small geographic area, such as Hamtramck, to have its own voices on the air, including community-related discussions and locally produced music; and WHEREAS, community radio has been illegal since the 1970s; and

WHEREAS, starting and operating a modern-day radio station is prohibitively expensive (hundreds of thousands of dollars) for an individual or small

business; however, the technology exists where a small radio station can be started and operated for only a few thousand dollars; and

WHEREAS, hundreds of community radio stations have been operating over the past several years to support local musicians and local talent; and

WHEREAS, the Federal Communications Commission is currently in the process of accepting public input on the re-legalization of community radio, Mass Media Bureau's Docket No. MM99-25; and

WHEREAS, MM99-25 will not interfere with existing broadcasters, nor even reserve a portion of the broadcast spectrum for community service, but will simply allow community groups and business owners to apply for broadcast licenses, a right currently enjoyed by only the most wealthy and powerful groups in our society; and

WHEREAS, the Michigan Music is World Class campaign is actively involved in creating an awareness of the great music being produced in our state; and WHEREAS, it is the Campaign's belief that community radio will be a boon to local economies, including the local music industry, by creating a demand for locally produced music that will benefit musicians, artists, manufacturers, record stores, music stores, and recording studios; and

WHEREAS, the Michigan Music is World Class campaign recently gathered 3,000 letters in support of HR379 and SR234, resolutions in the Michigan House and Senate in favor of community radio; and WHEREAS, the Michigan Music is World Class campaign is asking cities and the State of Michigan to urge the FCC to re-legalize community radio via non-binding Council resolutions; and

WHEREAS, the cities of Detroit, Ferndale, and Hazel Park have already passed non-binding, City Council resolutions supporting the adoption by the Federal Communications Commission of MM99-25;

NOW, THEREFORE BE IT RESOLVED, that the Common Council of the City of Hamtramck go on record in support of community radio and urge the Federal Communications Commission to adopt MM99-25; and

BE IT FURTHER RESOLVED, that copies of this resolution be sent to the Federal Communications

Commission, to the Honorable Representative Carolyn Cheeks-Kilpatrick, and to the Michigan Music is World Class Campaign.
Adopted unanimously.

3-3-99

● **Ann Arbor**

Resolution in Support of New Licenses for Low Power FM Community Radio

WHEREAS, the City of Ann Arbor is committed to the principles of free speech guaranteed in the First Amendment to the United States Constitution; and WHEREAS, citizens of our community hold the broadcast airwaves to be public property and a public trust; and

WHEREAS, the Federal Communications Commission (FCC) has not made affordable, Low Power (<100 watts) FM broadcast frequencies available for community use since 1978 when regulatory changes eliminated Class D FM licenses for less than 100 watts of power; and

WHEREAS, the passage of the Telecommunications Act of 1996 has led to an unprecedented consolidation of broadcast industry ownership, and a marked decrease in both local and minority ownership of radio stations and origination of programming; and

WHEREAS, the rights of free speech and a free press are threatened when access to communications media is concentrated in the hands of the few; and

WHEREAS, the Ann Arbor community has already demonstrated its commitment to local access through its long-term and enthusiastic support for the local community access television, Community Television Network, and its local low power radio station, WCBN; and

WHEREAS, the FCC is now hearing public comment on a proposal to once again offer simple, affordable, commercial and non-commercial Low Power FM broadcast licenses(FCC's MM Docket No. 95-25); and WHEREAS, commercial and non commercial radio stations operating under such a license could provide a community voice to individuals, musicians, artist, writers, activists, students, and points of view which are presently economically barred from access to their own abovementioned airwaves; and

WHEREAS, issuance of said licenses would constitute a net benefit to the social, cultural, and political life of Ann Arbor and its citizens, and to communities across the state of Michigan and the U.S.;

Therefore be it Resolved, that the City of Ann Arbor supports the concept of Low Power radio stations, and urges the FCC to fulfill its mandate as guardian of a public resource, and to enact a licensing regulation to grant affordable, simple, commercial and non-commercial broadcast licenses to citizens of this and other communities in this country;

And be it Further Resolved, that the City of Ann Arbor supports the efforts of those who endeavor to advocate such regulatory change, and to enrich the life of our diverse community through legally establishing commercial and non-commercial public-access radio outlet;

And be it Finally Resolved, that copies of this resolution shall be sent to FCC Chairman William Kennard, to Michigan Senators Spencer Abraham and Carl Levin, Congresswoman Lynn Rivers, and to Ann Arbor's representatives in Lansing, with the request that they support the FCC's proposal to reintroduce Low Power FM radio broadcasting to our country.

Submitted by Council Members Daley and Kolb March 1, 1999"

Adopted March 3, 1999.

● **Howell**

Resolution No. 99-07

WHEREAS, the Federal Communications Commission (hereinafter referred to as "FCC") stopped issuing new Class D broadcasting licenses, which licenses were for operations with use of 100 watts of power or less on FM bands;

WHEREAS, the ban on the issuance of Class D broadcasting licenses has been in force and effect over the term of the last 20 years, in part to prevent the orderly development of FM radio and potential difficulties to the efficient operation of those FM stations serving a greater number of people and with a considerably higher wattage;

WHEREAS, the concerns that were set out by the FCC

in the past have not developed and as a result, a change in FCC policies has been requested by virtue of a movement to re-institute Class D licenses and /or community radio, otherwise known as low power FM radio service;

WHEREAS, the Howell City Council believes that the re-institution of low power FM radio service will be, in fact, a worthwhile public service providing diversity of ownership, public choice, business promotion and communications reflecting the needs and character of the community both in and surrounding the City of Howell.

NOW THEREFORE, BE IT RESOLVED that the Howell City Council requests and encourages the FCC to restore approval for low power FM radio service and/or broadcasting pursuant to the current petition otherwise known as RM-9242, as amended through the rule-making process.

IT IS FURTHER RESOLVED that copies of this Resolution shall be transmitted immediately by the City Clerk to the FCC.

Resolution passed this 29th Day of March, 1999

● **Livonia**

A Resolution To Support Reinstatement of Licensing For Low Power FM Radio Stations

#461-99

WHEREAS, in 1978, the Federal Communications Commission (FCC) ended its licensing of low power

(less than 100 watts) radio stations, thereby reducing the number of locally-based stations;

WHEREAS, nationally, a movement has emerged to advocate the reinstatement of low power, lower cost FM radio stations; this movement has resulted in a formal rule-making petition before the FCC, known as RM-9242;

WHEREAS, at the state level, the Michigan Senate has introduced Senate Resolution 234 (SR234) and the House of Representatives has introduced House Resolution 379 (HR379) which support the adoption of RM-9242 to create a new service of small, locally-owned FM stations;

NOW THEREFOR BE IT RESOLVED, that the Livonia City Council urges the FCC to restore approval for low power FM radio broadcastings;

BE IT FURTHER RESOLVED that copies of this resolution be sent to Governor Engler, State Senator Thaddeus McCotter, State Representative Laura Toy and State Representative Gerald Law.

Ayes: Walsh, Vandersloot, Pastor, Duggan, Laura, Brosnan, Angebretson

Nays: None.

The President the resolution adopted.

Joan McCotter, City Clerk

● **Washtenaw County**

A Resolution in Support of Low Power FM Radio Services and/or Broadcasting

Washtenaw County Board of Commissioners

WHEREAS, the County of Washtenaw is committed to the principles of free speech guaranteed in the First Amendment to the United States Constitution; and WHEREAS, the Federal Communications Commission (FCC) has not made affordable, Low Power (less than 100 watts) FM broadcast frequencies available for community use since 1978 when regulatory changes eliminated Class D FM licenses for less than 100 watts of power; and

WHEREAS, the passing of the Telecommunications Act of 1996 has led to an unprecedented consolidation of broadcast industry ownership and a marked decrease in both local and minority ownership of radio stations

and originations of programming; and WHEREAS, the rights of free speech and a free press are threatened when access to communication media is concentrated in the hand of the few; and WHEREAS, the FCC is now hearing public comment on a proposal to offer simple, affordable, commercial and non-commercial Low Power FM broadcast licenses (FCC's MM Docket No. 99-25); and WHEREAS, commercial and non-commercial radio stations operating under such a license could provide a community voice to individuals, musicians, artists, writers, activists, students and points of view which are presently economically barred from access to their own above-mentioned airwaves; and WHEREAS, issuance of said licenses would constitute a net benefit to the social, cultural and political life of Washtenaw County and its citizens; and WHEREAS, Washtenaw County is committed to enhancing public awareness of current events and issues by advocating for the creation of low power FM radio stations in Washtenaw County NOW THEREFORE BE IT RESOLVED that the Washtenaw County Board of Commissioners hereby supports the concept of low power radio stations and urges the FCC to fulfill its mandate as guardian of a public resource and to enact a licensing regulation to grant affordable, simple, commercial and non-commercial broadcast licenses to its citizens. BE IT FURTHER RESOLVED that the Board of Commissioners directs the County Clerk to forward copies of this resolution to the representatives of Washtenaw County and the Michigan Association of Counties.

● **Dearborn**

Resolution No. 7-565-99

By Olkowski, supported by Polidori

WHEREAS: The Federal Communications Commission (FCC) has proposed additional Low Power FM (LPFM) radio service which will benefit the City of Dearborn by allowing government and organizations of limited financial means to add their voices to the existing mix of political, social and entertainment programming, and WHEREAS: LPFM would create opportunities for new radio broadcast ownership, promote diversity in programming, provide for community oriented services, and

WHEREAS: Nationally, a grassroots movement has emerged for the purpose of advocating FCC reinstatement of licensing of LPFM radio stations. Their efforts have resulted in a formal rule-making, RM-9242, that would create opportunities for the return of locally owned and responsive FM radio stations for communities; Now therefore be it

RESOLVED: That the City of Dearborn urges the FCC to restore approval for LPFM radio broadcasting by adopting RM-9242; Be it further

RESOLVED: That copies of this resolution be sent to the FCC; Be it further

RESOLVED: That this resolution be given immediate effect.

The resolution was unanimously adopted.

● **Bruce Twp.**

Resolution to urge the Federal Communications Commission (FCC) to restore approval for low power FM radio broadcasting.

Present: Gary Schocke, Supervisor, Karol Regius, Clerk, Deborah Obrecht, Treasurer, Brian Palmer and Mark Falker, Trustees

The following preamble and resolution was offered by Treasurer Obrecht and seconded by Trustee Palmer:
WHEREAS, in 1978 the FCC ended its licensing of low power radio stations (Class D broadcasting licenses to stations of less than 100 watts) reducing overall the

number of locally-based radio stations in service to local communities. Since that rule change, other factors such as increased consolidations within the radio broadcast market has contributed to a significant reduction in the number of community responsive radio services; and

WHEREAS, nationally a grassroots movement has emerged for the purpose of advocating FCC reinstatement of licensing of low power radio stations. Their efforts have resulted in a formal rule-making petition before the FCC, REM-9242, that would create opportunities for the return of locally-owned and responsive FM radio stations for communities; and WHEREAS, re-legalization of low power radio stations would serve to increase local media presence and ownership, promote small business development, and broadcast entrepreneurship; increase community choice and allow for communication services that are responsive to the needs of local communities.

NOW THEREFORE BE IT RESOLVED, that the Township of Bruce urges the Federal Communications Commission to restore approval for low power FM radio broadcasting. The Township of Bruce joins the Michigan Senate (SR234), the Michigan House of Representatives (HR379) and the many grassroots organizations in seeking FCC adoption of petition RM-9242 to restore low power FM radio broadcasting. BE IT FURTHER RESOLVED, that copies of this resolution be sent to the Federal Communications Commission. Resolution declared adopted.

● **Waterford Twp.**

Resolution Supporting Restoration of Low Power FM Radio Broadcasting

WHEREAS, The Federal Communications Commission (FCC) is receiving public comments concerning a proposal to re-establish low power broadcasting services; and

WHEREAS, allowing low power FM radio to return to the airwaves will promote communications that better reflect the character needs to local communities, NOW THEREFORE, BE IT RESOLVED, that the

Charter Township of Waterford encourages the F.C.C. to restore approval of low power FM radio broadcasting, and

BE IT FURTHER RESOLVED that copies of this resolution be transmitted to the Federal Communications Commission.

8-5-99

● **Wayne County**

WHEREAS, the County of Wayne is committed to the principles of free speech guaranteed in the First Amendment to the United States Constitution and the citizens of Wayne County hold the broadcast airwaves to be public property and a public trust; and WHEREAS, for many years, low power stations (Class D broadcasting FM stations of less than 100 watts) filled a unique niche in the communications needs of local communities and their citizenry; and

WHEREAS, in 1978, the Federal Communications Commission (FCC) ended its policy of licensing of low power radio stations thereby eliminating affordable, low power FM broadcast frequencies available for community use and reduce both local and minority ownership of radio stations; and

WHEREAS, in recent years, other factors, such as increased consolidation within the radio broadcast market and a rise in economic threshold which limit access to public media resources, have also contributed to a significant reduction in the number of community responsive radio services; and

WHEREAS, the rights of free speech and a free press are threatened when access to communication media is concentrated in the hands of the few; and

WHEREAS, a national grassroots movement emerged for the purpose of advocating that the FCC reinstate the licensing of low power radio stations and their efforts resulted in a formal rule-making petition before the FCC, RM 92-42, that would create opportunities for return of locally owned and responsive FM radio stations for communities; and

WHEREAS, the FCC is now hearing public comment on the re-legalization of community radio (FCC's Mass Media Bureau's Docket No. MM 99-25) which would, if

adopted, once again offer simple, affordable, commercial and non-commercial low power FM broadcast licenses to community groups and business owners; and WHEREAS, the re-legalization of low power radio stations would serve to increase local media presence and ownership, promote small business development and broadcast entrepreneurship, increase community choice and allow for communication services that are responsive to the needs of local communities; and Now therefore be it RESOLVED, that the Wayne County Commission on this 5th Day of August, 1999, requests and encourages the Federal Communications Commission to fulfill its mandate as guardian of a public resource by adopting MM 99-25 and restore approval for low power FM radio service and/or broadcasting; and be it further RESOLVED, that copies of this resolution be forwarded to the Chairman of the Federal Communications Commission, William Kennard, the entire Michigan Congressional Delegation and the County's lobbyists. ● **Warren**

#016917

The following preamble and resolution were offered by Council Member Busse and supported by Council Member Sulaka.

WHEREAS, in 1978, the Federal Communications Commission (FCC) ended its licensing of low power radio stations (Class D broadcasting licenses to stations to less than 100 watts) reducing overall the number of locally-based radio stations in service to local communities; and

WHEREAS, re-legalization of low power radio stations would serve to increase local media presence and ownership, promote small business development and broadcast entrepreneurship, increase community choice and allow for communication services that are responsive to the needs of local communities; NOW THEREFORE BE IT RESOLVED, that the Warren City Council urges the Federal Communications Commission to restore approval for low power FM radio broadcasting by adopting petition RM 9242.

BE IT FURTHER RESOLVED, that copies of this resolution be sent to the FCC, Federal and State Congressional legislators.

Ayes: Fouts, Busse, Chupa, Sulaka, Dimas

Nays: none

8-9-99

● **Harper Woods**

WHEREAS, the Federal Communications Commission (hereinafter referred to as FCC) stopped issuing new Class D broadcasting licenses, which licenses were for operation with use of 100 watts of power or less on FM bands; and

WHEREAS, the ban on the issuance of Class D broadcasting licenses has been in force and effect over the term of the last 20 years, in part to prevent the orderly development of FM radio and potential difficulties to the efficient operation of those FM stations serving a greater number of people and with a considerably higher wattage; and

WHEREAS, the concerns that were set out by the FCC in the past have not developed and as a result a change in FCC policies has been requested by virtue of a movement to re-institute Class C licenses and/or community radio, otherwise known as low power FM radio service; and

WHEREAS, the Harper Woods City Council believes that the re-institution of low power FM radio service will be, in fact, a worthwhile public service providing diversity of ownership, public choice, business promotion and communications reflecting the needs and character of the community both in and surrounding the City of Harper Woods.

NOW, THEREFORE, BE IT RESOLVED, that the Harper Woods City Council requests and encourages the FCC the restore approval for low power FM radio service and/or broadcasting pursuant to the current petition otherwise known as RM-9242, as amended through the rule-making process.

IT IS FURTHER RESOLVED, that copies of this Resolution shall be transmitted immediately by the City Clerk to the FCC.

Adopted unanimously.

● **Clawson**

CM-08-172-99

RESOLUTION IN SUPPORT OF RE-LEGALIZATION
OF COMMUNITY RADIO

Motion by: Councilman Moulton

Supported by: councilman Middlewood

WHEREAS, in 1978 the Federal Communications

Commission stopped licensing low power radio stations;
and

WHEREAS, a national movement has emerged for
these low power radio stations and, as a result, petition
RM 92-42 is currently pending before the F.C.C.

NOW THEREFORE, BE IT RESOLVED BY THE CITY
OF CLAWSON, that the Clawson City Council urges the
F.C.C. to restore and approve low power FM radio
broadcasting, and joins the Michigan Senate (SR234)
and the Michigan House of Representatives (HR379) in
this request.

Ayes: Palmer, Iseppi, Middlewood and Moulton

Nays: none

Motion Carried.
